

IECEX Certificate of Conformity

INTERNATIONAL ELECTROTECHNICAL COMMISSION IEC Certification System for Explosive Atmospheres

for rules and details of the IECEx Scheme visit www.iecex.com

Certificate No.: **IECEX LCIE 21.0021X** Page 1 of 3 [Certificate history:](#)

Status: **Current** Issue No: 0

Date of Issue: 2021-12-23

Applicant: **Svend Hoyer A/S**
Over Hadstenvvej 38-42
DK-8370
Hadsten
Denmark

Equipment: **Three phase cage induction motors**

Optional accessory:

Type of Protection: **Ex ec/tc**

Marking: Ex ec IIC T3 Gc
Ex tc IIIB T120°C Dc
IECEX LCIE 21.0021X
See attachment for full marking

Approved for issue on behalf of the IECEx
Certification Body:

Julien GAUTHIER

Position:

Certification Officer

Signature:
(for printed version)

Julien Gauthier

Date:

Date of issue: 2021-12-23

Issue No: 0

Manufacturer: **Svend Hoyer A/S**
Over Hadstenvvej 38-42
DK-8370
Hadsten
Denmark

Additional manufacturing locations: **Svend Hoyer Power Transmission Ningbo Co., LTD.**
No. 19, JingWu Middle Road, Beilun District
Ningbo Zhejiang 315821
China

This certificate is issued as verification that a sample(s), representative of production, was assessed and tested and found to comply with the IEC Standard list below and that the manufacturer's quality system, relating to the Ex products covered by this certificate, was assessed and found to comply with the IECEx Quality system requirements. This certificate is granted subject to the conditions as set out in IECEx Scheme Rules, IECEx 02 and Operational Documents as amended

STANDARDS :

The equipment and any acceptable variations to it specified in the schedule of this certificate and the identified documents, was found to comply with the following standards

[IEC 60079-0:2017](#) Explosive atmospheres - Part 0: Equipment - General requirements
Edition:7.0

[IEC 60079-31:2013](#) Explosive atmospheres - Part 31: Equipment dust ignition protection by enclosure "t"
Edition:2

[IEC 60079-7:2015](#) Explosive atmospheres – Part 7: Equipment protection by increased safety "e"
Edition:5.0

This Certificate **does not** indicate compliance with safety and performance requirements other than those expressly included in the Standards listed above.

TEST & ASSESSMENT REPORTS:

A sample(s) of the equipment listed has successfully met the examination and test requirements as recorded in:

Test Report:

[FR/LCIE/ExTR21.0044/00](#)

Quality Assessment Reports:

[IT/CES/QAR14.0004/04](#)

[NL/CNEX/QAR20.0004/00](#)

IECEX Certificate of Conformity

Certificate No.: **IECEX LCIE 21.0021X**

Page 3 of 3

Date of issue: 2021-12-23

Issue No: 0

EQUIPMENT:

Equipment and systems covered by this Certificate are as follows:

Hoyer three-phase cage induction motors series HMC2.

SPECIFIC CONDITIONS OF USE: YES as shown below:

- The entries of the equipment shall be equipped with certified cable glands or blanking elements with compatible modes of protection for the intended use.
- All accessories associated to the motor to ensure smooth operation and safety shall provide a recognized protection type adapted to the specific use .
- When breather and drain devices will be used, they shall be certified for the intended used..
- User shall regularly look after good bearing conditions, and shall not exceed the life time defined by manufacturer's instructions. Manufacturer's instructions concerning plastic seals and O'rings shall also be respected.
- When required in order to minimize the risk of hazards caused by electrostatic charges, clean the motor only with a wet rag or by non-frictional means..
- The associated ratings for duties S2 to S9 are adjusted to ensure a winding temperature rise equal or below the temperature rise of specific duty S1.

Annex:

[IECEX LCIE 21.0021 X Annex.pdf](#)

Annex 01 to Certificate IECEX LCIE 21.0021 X issue 00

FULL EQUIPMENT DESCRIPTION

The three-phase asynchronous motor series HMC2 with squirrel-cage are manufactured in cast iron of frame sizes IEC 90 355 type of protection Ex ec and Ex tc.
They can be self-ventilated or with forced cooling.
The motors are manufactured with efficiency class IE2 and according to IEC 60034-30 standard.

Voltage supply : up to 630 V ⁽¹⁾
 Frequency: 50 Hz or 60 Hz or both.
 Duty: S1 ... S9 ⁽²⁾

Annex 01 to Certificate IECEX LCIE 21.0021 X issue 00

⁽¹⁾ The values of current/power indicated in the tables above are for voltages 400V/50Hz and 440V/60Hz. For the other voltages the winding shall be calculated proportionally to the voltage to maintain same output power and the same current values as in the tables above.

⁽²⁾ : The associated ratings for duties S2 to S9 are adjusted to ensure a winding temperature rise below the temperature rise of specific duty S1

ROUTINE TESTS

Dielectric strength test related to type of protection “e”:

According to clause 7.1 of IEC 60079-7, each Ex e motor shall be submitted to a dielectric strength test carried out in accordance with 6.1.
