SAFETY DATA SHEET

ARALDITE® STANDARD G RESIN

SECTION 1: Identification of the substance/mixture and of the company/ undertaking

: ARALDITE® STANDARD G RESIN
: Not available.
: 00087388
: · · · · · · · · · · · · · · · · · · ·
: Not available.

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product use : F	Resin for adhesive systems
-----------------	----------------------------

1.3 Details of the supplier of the safety data sheet

Supplier	 Huntsman Advanced Materials (Switzerland) GmbH Klybeckstrasse 200 CH-4057 Basel / Switzerland Tel.: +41 61 299 20 41 Fax: +41 61 299 20 40
e-mail address of person responsible for this SDS	: Global_Product_EHS_AdMat@huntsman.com
	E-mail address to request full REACH registration number upon EU member State Authority request : REACH_Registration_Nr_AM@huntsman.com

1.4 Emergency telephone number

Switzerland	: Swiss Toxicologic Information Centre - Emergency Phone 145 (24 h, +41 44 251 5151 from outside Switzerland)
<u>Supplier</u>	
Telephone number	: EUROPE: +32 35 75 1234 France ORFILA: +33(0)145425959 ASIA: +65 6336-6011 China: +86 20 39377888 +86 532 83889090 India: + 91 22 42 87 5333 Australia: 1800 786 152 New Zealand: 0800 767 437 USA: +1/800/424.9300

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture	
Product definition : Mixture	
Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS] Skin Irrit. 2, H315 Eye Irrit. 2, H319 Skin Sens. 1, H317 Aquatic Chronic 2, H411	
Ingredients of unknown : toxicity	
Ingredients of unknown : ecotoxicity	
Classification according to Directive 1999/45/EC [DPD]	

Date of issue / Date of revision : 3/19/2015.

ARALDITE STANDARD G R	ESIN		2/2
Date of printing	: 19 March 2015	(M)SDS no.	: 00087388
Date of issue	: 19 March 2015	Version	: 1
SECTION 2: Hazards	s identification		
The product is classified as	dangerous according	to Directive 1999/45/EC and its a	mendments.
Classification	: Xi; R36/38 R43 N; R51/53		
Human health hazards	: Irritating to eyes a	nd skin. May cause sensitisatior	n by skin contact.
Environmental hazards	: Toxic to aquatic o environment.	rganisms, may cause long-term a	adverse effects in the aquatic
See Section 16 for the full te	xt of the R phrases or I	I statements declared above.	
See Section 11 for more det	ailed information on he	alth effects and symptoms.	
2.2 Label elements Hazard pictograms			
Signal word	: Warning

<u>Type</u>

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

[3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII

[4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII

[5] Substance of equivalent concern

SECTION 4: First aid measures

4.1 Description of first aid measures

Eye contact	: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
Skin contact	: Wash with plenty of soap and water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse. Clean shoes thoroughly before reuse.

4.2 Most important symptor	ns and effects, both acu	te and delayed	
Potential acute health effe	<u>cts</u>		
Eye contact	: Causes serious eye	rritation.	
Inhalation	: No known significant	effects or critical hazards.	
Skin contact	: Causes skin irritation	. May cause an allergic skir	reaction.
Ingestion	: Irritating to mouth, th	roat and stomach.	
Over-exposure signs/symp	<u>otoms</u>		
Eye contact	: Adverse symptoms pain or irritation watering redness	may include the following:	
Inhalation	: No specific data.		
Skin contact	: Adverse symptoms irritation redness	may include the following:	
Ingestion	: No specific data.		
4.3 Indication of any immed	iate medical attention ar	id special treatment neede	bd
Notes to physician			t specialist immediately if large
Notes to physician	quantities have been		specialist infinediately in large
Specific treatments			s indicated. Following severe al review for at least 48 hours.

5.1 Extinguishing media		
Suitable extinguishing media	:	Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	:	None known.

5.2 Special hazards arising from the substance or mixture

Hazards from the substance or mixture
 In a fire or if heated, a pressure increase will occur and the container may burst. This material is toxic to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.

ARALDITE STANDARD G R	ESI	N		5/20
Date of printing	:	19 March 2015	(M)SDS no.	: 00087388
Date of issue	:	19 March 2015	Version	: 1
SECTION 5: Firefigh	tir	ig measures		
Hazardous thermal decomposition products	:	Decomposition prod carbon dioxide carbon monoxide halogenated compo metal oxide/oxides	ucts may include the following unds	materials:
5.3 Advice for firefighters				
Special precautions for fire-fighters	:		scene by removing all persons ction shall be taken involving a	s from the vicinity of the incident if any personal risk or without
Special protective equipment for fire-fighters		breathing apparatus mode. Clothing for f		
SECTION 6: Accider	nta	l release meas	ures	
6.1 Personal precautions, p	rote	ctive equipment and	l emergency procedures	
For non-emergency	:	No action shall be ta	ken involving any personal ris	k or without suitable training.

personnel		Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Avoid breathing vapour or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders	:	If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

6.2 Environmental	: Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains
precautions	and sewers. Inform the relevant authorities if the product has caused environmental
-	pollution (sewers, waterways, soil or air). Water polluting material. May be harmful
	to the environment if released in large quantities. Collect spillage.

6.3 Methods and material for containment and cleaning up

Small spill	: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill	: Stop leak if without risk. Move containers from spill area. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spill product.
6.4 Reference to other sections	: See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protective equipment. See Section 13 for additional waste treatment information.

ARALDITE STANDARI	D G RESIN			6/20
Date of printing	: 19 March 2015	(M)SDS no.	: 00087388	
Date of issue	: 19 March 2015	Version	: 1	

SECTION 7: Handling and storage

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

7.1 Precautions for safe handling

Protective measures	: Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapour or mist. Avoid release to the environment. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
Advice on general occupational hygiene	: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
7.2 Conditions for safe storage, including any incompatibilities	: Store between the following temperatures: 2 to 40°C (35.6 to 104°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.
Storage hazard class Huntsman Advanced Materials	: Storage class 10, Environmentally hazardous liquids
7.3 Specific end use(s)	
Recommendations	: Not available.
Industrial sector specific solutions	: Not available.

SECTION 8: Exposure controls/personal protection

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

8.1 Control parameters

Occupational exposure limits

No exposure limit value known.

procedures

Recommended monitoring : If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to monitoring standards, such as the following: European Standard EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy) European Standard EN 14042 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents) Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

12.6 Other adverse effects : No known significant effects or critical hazards.

12.7 Other ecological information

SECTION 13: Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

13.1 Waste treatment methods

Product	
Methods of disposal	: The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non- recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.
Hazardous waste	: Yes.

European waste catalogue (EWC)

Waste code	Waste designation		
07 02 08*	other still bottoms and reaction residues		
Packaging			
Methods of disposal	 The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. 		
Special precautions	: This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

EU Regulation (EC) No. 1907/2006 (REACH)

This product is compliant with the REACH Regulation EC 1907/2006. Huntsman has pre-registered and is registering all of the substances that it manufactures in or imports into the European Economic Area (EEA) that are subject to Title II of the REACH Regulation.

Annex XIV - List of substances subject to authorisation

Annex XIV

None of the components are listed.

Substances of very high concern

None of the components are listed.

Annex XVII - Restrictions : Not applicable. on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles

Other EU regulations
